*The Four Steps to Healing* sheds light on an issue that has touched the lives of many but is talked about by few. The myth of abortion as a “selfish” choice is dispelled by the experiences of women who chose abortion

out of concern everyone’s needs but their own. Many who suffer from post-abortion grief are, caring nurturers, helpers by nature who take spiritual matters seriously. *The Four Steps to Healing* is a resource for those who want to be healed and for those who want to help.
